## ADOPT-A-WISH® PROGRAMME

### Transform lives, one wish at a time.

We believe wishes improve the odds for wish children fighting critical illnesses. It's why we do what we do. Sure, wishes are amazing and fun. More than that, they inspire and have the power to change lives. Wishes help children look past their limitations, families overcome anxiety and entire communities experience joy.

Most importantly, wishes can improve a child's quality of life, giving them a better chance of recovering. Despite suffering from critical illnesses like cancer, muscular dystrophy, end-stage kidney failure, having their special wishes fulfilled gives children a chance to put their illnesses aside and experience the impossible becoming possible.

### Adopt-A-Wish Programme

Make-A-Wish depends solely on the support and generosity of the community to fulfil each and every wish. A company, an employee group, a professional club, an individual or a group of friends can adopt a child's wish from a minimum amount of \$2,500.

### Wish Adopter Benefits

1. A direct contribution towards making a wish child's wish come true.
2. Have your name published as a Wish Adopter if the wish is featured in our newsletter.
3. Receive a Wish Report at the end of the wish.

The wishes that are scheduled to be granted soon are listed below. Simply choose whose wish you'd like to grant and tell us the Wish Child's Name and #.

**Together, we can create life-changing wishes  
for children with critical illnesses.**
