

September 2026

ADOPT-A-WISH® PROGRAMME

Transform lives, one wish at a time.

We believe wishes improve the odds for wish children fighting critical illnesses. Wishes are amazing and fun, and they are more than that: they inspire, and they have the power to change lives. Wishes help children look past their limitations, families overcome anxiety, and entire communities experience joy.

Most importantly, wishes can improve a child's quality of life, giving them a better chance of recovering. Despite suffering from critical illnesses such as cancer, muscular dystrophy, or end-stage kidney failure, having their special wish fulfilled gives children a chance to put their illness aside and experience the impossible becoming possible.

Adopt-A-Wish Programme

Make-A-Wish depends solely on the support and generosity of the community to fulfil each and every wish. A company, an employee group, a professional club, an individual, or a group of friends can adopt a child's wish.

Wish Adopter Benefits

1. A direct contribution towards making a wish child's wish come true.
2. Your name published as a Wish Adopter if the wish is featured in our newsletter.
3. A Wish Report at the end of the wish.

30 children are waiting for their wish to be adopted.

*Take a look at the wishes below and choose the one that speaks to you most.
Simply let us know the Wish Child's initials and Wish Child's number to begin.*

Together, we can create life-changing wishes
for children with critical illnesses.

Make-A-Wish.

Local Outings

"I wish to have a staycation!"

CLXP, 4, cerebral palsy, global developmental delay, seizures, dystonia (WC25103)

CLXP is a 4-year-old girl living with cerebral palsy, global developmental delay, seizures, and dystonia. She is non-verbal but loves spending quality time with her family. Frequent hospital treatments and visits have kept her from seeing her extended family for a long time, so this staycation gives her a valuable chance to reconnect with them. Her family is also looking forward to letting her try eggless cake for the first time at the staycation party.

Delivery Date: 12 December 2026

Adoption Amount: \$3,700

Mobility and Equipment

"I wish to have a wheelchair!"

JTKY, 3, meningoencephalitis (WC25149)

JTKY is a spirited 3-year-old girl living with meningoencephalitis, a condition that affects her strength, movement, and postural control. She needs significant support for transfers and has poor neck and trunk control, putting her at risk of further postural complications such as scoliosis as she grows. She currently uses a loaned Rifton Activity Chair and has no customised seating system of her own. Her wish is for her first custom equipment provision, giving her the posture, comfort, and positioning support she needs for daily life, while protecting her growing body and improving her quality of life at home.

Delivery Date: Estimated September 2026

Adoption Amount: \$12,500

"I wish to have a wheelchair!"

MIDBJ, 18, CRASH syndrome (WC26045)

MIDBJ communicates through gestures, picture cards, sounds, and laughter, expressing joy with an audible "ah." Living with Global Developmental Delay and CRASH Syndrome, conditions that affect his mobility, communication, and daily functioning, he currently self-propels a manual wheelchair. As he moves into adulthood, he needs a wheelchair and seating system properly fitted to his current body size and long-term mobility needs. This wish will give MIDBJ greater comfort, safety, and independence, while supporting his father, his main caregiver, at home and in the community.

Delivery Date: Estimated September 2026

Adoption Amount: \$8,500

"I wish to have a new wheelchair!"

SS, 12, cerebral palsy (WC26002)

SS needs supportive seating to take part in daily activities and routines. At home with her family outside school hours, she currently has no supportive seating system, relying instead on a pram for getting to and from school that she has now outgrown and that does not encourage good posture. Her new wheelchair will give her a stable, comfortable seating system that supports her spine, helps prevent further complications, and encourages her to take part and engage more fully both at home and in school. She will be celebrating her new wheelchair at Kiztopia!

Delivery Date: 5 September 2026

Adoption Amount: \$13,400

"I wish to have a motorised wheelchair!"

LXY, 15, cerebral palsy (WC24053)

LXY is a determined teenager who currently relies fully on others for mobility, as his condition makes an independent manual wheelchair difficult to use. Through training at school, he has been learning to use a powered wheelchair and is progressing well indoors. A powered wheelchair of his own would let him practise more at home and in the community, growing his independence, confidence, and participation in everyday activities.

Delivery Date: 17 September 2026

Adoption Amount: \$25,900

Wish is available for 50% co-adoption

"I wish to have a wheelchair!"

RRS, 17, lumbosacral myelomeningocele (spina bifida) (WC26060)

RRS lives with spina bifida, which has affected his lower-limb strength and posture and caused leg length discrepancy and scoliosis. Though he can walk short distances with ankle-foot orthoses and mobility aids, he experiences fatigue and pain over longer distances or when using ramps. His current basic manual wheelchair offers no customised postural support, and prolonged sitting at school has caused pain in his spine and legs. His wish is for a customised wheelchair with proper cushioning, backrest, and support, so he can move more comfortably and take part more independently in school and daily life.

Delivery Date: Estimated October 2026

Adoption Amount: \$16,200

Wish is available for 50% co-adoption

"I wish to have a wheelchair!"

AJ, 7, spastic dystonic cerebral palsy, epilepsy (WC26059)

AJ is a 7-year-old boy living with spastic dystonic quadriplegic cerebral palsy, complicated by epilepsy, cortical visual impairment, and swallowing difficulties. He uses a wheelchair, is non-verbal, and also lives with bilateral hip subluxation and scoliosis. His current stroller, purchased in 2021, no longer provides enough support for his posture, particularly for his spine and hips. His new custom wheelchair, a Zippie TS Tilt-in-Space, is designed to support his posture now and as he grows, easing the load on his caregiver and making it easier for him to get out and enjoy family outings.

Delivery Date: Estimated October 2026

Adoption Amount: \$13,200

"I wish to have a wheelchair!"

ETJY, 9, West syndrome (WC26063)

ETJY is a 9-year-old boy living with West syndrome, alongside refractory epilepsy and global developmental delay, and requires long-term medication to manage his seizures. He needs support with daily activities and is functionally dependent for mobility, requiring assistance with pressure relief and special seating due to a high risk of body structural deformity. Non-verbal, ETJY finds joy in classical music. He is currently using an old buggy that he has outgrown and that can no longer support his seating posture or be adjusted to suit his growth. His new custom wheelchair, a Zippie TS Tilt-in-Space, is fitted to his size, with adjustable features that will grow with him.

Delivery Date: Estimated October 2026

Adoption Amount: \$12,200

Room Enhancements

"I wish to have a room enhancement!"

HZBR, 17, pulmonary atresia with ventricular septal defect (WC25117)

HZBR is a gentle, reserved young woman living with a rare and complex congenital heart condition. Following complications from a recent surgery and over eight months in hospital, her condition has changed significantly, and she now relies on medical equipment and a wheelchair for daily living. As HZBR spends much of her time at home in her room, her wish is for a purple-themed room enhancement that is both comforting and practical: a new wardrobe and improved layout to keep her medical supplies and daily necessities neatly organised, in a beautiful, calming space she can truly call her own.

Delivery Date: Estimated September 2026

Adoption Amount: \$5,000

"I wish to have a room enhancement!"

ETHT, 18, superior mesenteric artery syndrome with parenteral nutrition dependence (WC26025)

ETHT has spent the past two years navigating a difficult medical journey, including multiple hospitalisations and a long diagnostic process that led to her being managed on total parenteral nutrition. She spends much of her time at home, in a room she describes as cluttered and dusty. Her wish is to transform that space into somewhere calm and personal, with freshly painted walls, new furniture, and a layout built around her own aesthetic, including proper display shelves for her Pop Mart collection, organised by series. After a long stretch of medical uncertainty, this wish gives ETHT something she can shape for herself: a space that reflects who she is, not just where she recovers.

Delivery Date: Estimated September 2026

Adoption Amount: \$5,800

"I wish to have a room enhancement!"

MYBZ, 15, West Syndrome and global development delay (WC22106)

MYBZ lives with West syndrome, a rare and severe form of epilepsy, and depends entirely on his mother, his sole caregiver, for daily care. When he is not in school, most of his time is spent in bed, so the room he lives in matters enormously, both to his comfort and to his mother's ability to care for him. His wish is for a custom-built room he can share with her: a space that is small but thoughtfully designed, with a bed, dedicated storage for his medical supplies, a display area for his plush toys, and a television to keep him entertained. Beyond comfort for MYBZ, this wish is designed to ease his mother's day-to-day caregiving.

Delivery Date: Estimated September 2026

Adoption Amount: \$6,200

Technology

"I wish to have the MacBook Pro 15!"

JWM, 16, acute myeloid leukemia (WC25100)

JWM is a mature teenager who has been out of school for some time due to treatment for acute myeloid leukemia. While in hospital, her social wellbeing and education matter to her more than almost anything else. JWM enjoys studying and hopes for a new MacBook so she can stay connected to family and friends and continue her education, even while confined to hospital.

Delivery Date: TBC

Adoption Amount: \$3,700

Travel Wishes

"I wish to go to Teenieping and Lotte World!"

NHX, 9, mixed phenotyped leukemia (WC25086)

NHX is an excitable, active girl with a love for Teenieping, a South Korean franchise of colourful, magical fairy creatures that each represent a different human emotion. It came as no surprise when she shared her dream of visiting Teenieping World in person. This will be her first trip to Korea, and a deeply meaningful one: she completed her transplant last year and has just received the all clear from her doctors to travel for her wish. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 5 September 2026

Adoption Amount: \$4,500

"I wish to go and ride the Harry Potter train in Edinburgh!"

QABY, 18, acute promyelocytic leukemia (WC24124)

QABY's life has been shaped by the Harry Potter series, which has helped her through many difficult moments. Her wish is to travel to Edinburgh and ride the Jacobite steam train, the iconic train featured in the films, along its famous viaduct, stepping straight into the landscapes she has only seen on screen. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 19 September 2026

Adoption Amount: \$7,000

"I wish to go to Tokyo Disneyland!"

PL, 4, leukemia (WC25089)

PL is an adorable little girl with a love for Disney princesses and characters. After intensive medical treatment, she has recovered well and is ready for her wish trip to Disneyland Tokyo, a park she has never visited before. She will be joined by her little sister and parents, and the team plans to surprise her with a princess makeover while she is there. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: Estimated September 2026

Adoption Amount: \$4,000

"I wish to go to Hong Kong Disneyland!"

AHEQ, 4, post liver transplant (WC25129)

AHEQ was born with biliary atresia, a rare congenital disease in which the bile ducts are blocked or absent. She has now successfully completed her liver transplant and is looking forward to her wish trip. After enduring so much since she was a baby, AHEQ is a feisty little girl, and Disney princesses are the perfect embodiment of her spirit. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 1 October 2026

Adoption Amount: \$5,500

"I wish to go to Legoland in Seoul!"

KABMY, 4, Langerhans cell histiocytosis (WC25148)

KABMY is battling Langerhans cell histiocytosis, a rare, cancer-like disorder in which abnormal immune cells form tumours or lesions that can damage the bones, skin, lungs, or other organs. A true LEGO maestro, he spends countless hours building intricate creations, especially during periods of isolation during treatment. Now stable and medically cleared to travel, KABMY's wish is to visit LEGOLAND Korea. Having already explored the park in Malaysia, he cannot wait to discover a brand-new LEGO world. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 31 October 2026

Adoption Amount: \$5,000

"I wish to go to Disneyland Shanghai!"

ACCY, 4, pre-B acute lymphoblastic leukemia (ALL) (WC25159)

ACCY has completed her treatment for pre-B acute lymphoblastic leukemia and is an avid fan of Zootopia. Her wish is to visit Zootopia Land at Disneyland Shanghai, where, in partnership with the park, she will have a surprise meet-and-greet with Judy and Nick, the film's main characters, an experience she will remember for a very long time. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 9 November 2026

Adoption Amount: \$3,000

"I wish to go to Korea on a Culinary Class Wars food adventure!"

ACY, 10, acute lymphoblastic leukaemia (WC24111)

ACY is a foodie and a big fan of the Culinary Class Wars series on Netflix, and she is especially excited to try the gimhap featured in the episodes. Her wish team has planned a food adventure for her in Korea, visiting the eateries she is most curious about and ranking her favourites along the way. To close out the trip, they plan to create a short video edited in the style of the series she loves. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 21 November 2026

Adoption Amount: \$5,800

"I wish to go to Universal Studios Japan!"

AKSAK, 6, adrenoleukodystrophy (WC23109)

AKSAK is a very energetic, personable boy whose favourite book series is Harry Potter, and who loves playing Mario Party with his older brothers. His wish is to visit Universal Studios Japan, where he can explore both Nintendo World and Wizarding World with his family on a VIP pass. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 25 November 2026

Adoption Amount: \$6,200

"I wish to go to Phu Quoc to visit a waterpark!"

NZBS, 9, hepatocellular carcinoma (WC25045)

NZBS is a shy but bubbly girl who treasures time with her loved ones. Before her treatment, a family trip to Malaysia left her with fond memories of the bathtub and swimming pool, so when it came to her wish, she knew she wanted water to be part of it. After considering a few options, she chose Phu Quoc, home to water parks including Vinwonders and Aquatopia, the largest water park in Southeast Asia. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 27 November 2026

Adoption Amount: \$5,600

"I wish to go to Shanghai Disneyland!"

KCRQ, 5, acute lymphoblastic leukemia (WC26033)

KCRQ loves all things Disney, and Zootopia has recently become her favourite. Fascinated by its world of animals, it was no surprise when she shared that she wanted to visit Shanghai Disneyland, the only Disney park with a dedicated Zootopia-themed land. Her love for the film only grew after she performed to the song "Zoo" at her recent graduation. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 28 November 2026

Adoption Amount: \$7,000

"I wish to visit the Santiago Bernabeu Stadium in Madrid!"

MZBMAL, 14, MOG antibody disease (WC24004)

MZBMAL is an excitable, sporty 14-year-old and a huge fan of Cristiano Ronaldo and Real Madrid FC, a passion he shares with his younger brother. After years of following the club, his wish is to visit its home, the Santiago Bernabeu Stadium in Madrid, to soak in the atmosphere and shop for merchandise with his brother and parents. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 30 November 2026

Adoption Amount: \$6,500

"I wish to go to Monarto Safari Resort in Australia!"

NFABMN, 6, complex congenital heart disease with severe tracheomalacia (WC23092)

NFABMN is a shy 6-year-old girl who loves animals, and giraffes are her favourite. Her wish is to recreate a family glamping experience at Monarto Safari Resort, a family-friendly resort in Adelaide, Australia. Working with the resort and Make-A-Wish Australia, the team hopes to bring NFABMN and her family a special, unforgettable experience at the end of the year. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: Estimated November 2026

Adoption Amount: \$6,200

"I wish to go to Tokyo Disneyland!"

RCJX, 18, congenital rubella syndrome with hypotonic dystonic cerebral palsy (WC15028)

RCJX lives with congenital rubella syndrome and hypotonic dystonic cerebral palsy, which affects her ability to communicate. She loves to travel and enjoys meeting fun characters, which makes Tokyo Disneyland a deeply meaningful wish for her. RCJX has never been to Tokyo, and her parents hope to give her the chance to experience the magic of Disneyland for the first time. Her mother, father, and sister plan to travel together, so the whole family can spend quality time and create memories that will stay with them for years to come. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 5 December 2026

Adoption Amount: \$6,200

"I wish to go to Nintendo World in Universal Studios Osaka!"

OABMS, 8, B-cell acute lymphoblastic leukemia (WC26040)

A huge fan of Mario, OABMS is heading to Nintendo World at the end of the year. His wish was clear from the start: Nintendo World at Universal Studios Osaka. Having played through nearly every Mario game, he has leaned on that world for comfort throughout his treatment. He will travel to Japan with his parents, spending a full day at Nintendo World before a second day exploring the rest of Universal Studios. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 6 December 2026

Adoption Amount: \$5,080

"I wish to go and ride on the Darling Harbour Carousel in Sydney!"

URBS, 9, left pulmonary artery sling (WC23007)

URBS loves everything about horses, from feeding and grooming to riding, and even watching videos of horses being born. At theme parks and carnivals, his favourite ride is always the carousel. After careful research, he chose the Darling Harbour Carousel in Sydney, a carousel over a century old and believed to be the second oldest surviving one in Australia, after the one at Melbourne Zoo. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 11 December 2026

Adoption Amount: \$5,700

"I wish to go to Seoul to film a K-pop dance video!"

OTXJ, 8, acute lymphoblastic leukemia (WC25136)

OTXJ is a bubbly, extroverted girl who loves dancing to K-pop. At just 8 years old, she has confidently mapped out her vision: a dance video filmed along the streets of Seoul, with roles assigned to each of her close-knit family members. As part of her wish journey, OTXJ will choreograph her own moves, design her outfit, and help scout the perfect Seoul streets for the shoot, a meaningful and exciting lead-up to seeing her wish come alive. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 12 December 2026

Adoption Amount: \$6,500

"I wish to go and watch a Liverpool match!"

AK, 14, B-cell lymphoma (WC25138)

AK has been a passionate Liverpool fan for seven years. Once, while in hospital, Liverpool scored during a match, and he cheered so loudly that a nurse had to help him settle down. He is deeply knowledgeable about the EPL, its clubs, players, and coaches, and counts Virgil van Dijk, Liverpool's captain, among his favourites. His wish is to watch a Liverpool match live at Anfield Stadium in December. Flights for this wish are supported by the generous donation of miles by KrisFlyer members, through our partnership with Singapore Airlines.

Delivery Date: 12 December 2026

Adoption Amount: \$6,500

"I wish to go on a family cruise!"

LZJ, 16, T-cell lymphoblastic lymphoma (WC25079)

LZJ is a reserved 16-year-old with a twin brother and four other siblings. After a tiring two years of treatment and frequent hospital visits, he hopes to spend valuable, uninterrupted time with his family, who have supported him throughout this difficult journey, on a cruise after his O-Level examinations. A self-professed foodie who follows food bloggers and mukbang channels in his free time, LZJ is especially looking forward to experiencing Penang's food culture on the shore excursion. This wish is partially sponsored by Royal Caribbean International.

Delivery Date: 17 December 2026

Adoption Amount: \$6,800

THE IMPACT OF A WISH

A GIFT OF HOPE & STRENGTH

A FAR-REACHING EFFECT

A LASTING IMPACT

"I wish to have my own bicycle!"

Danish, 13, anaplastic large cell lymphoma

Danish loves biking with his friends, and his biggest wish was to have a new bike. His mother shared said that he would usually take his grandmother's bike just to be able to bike with his friends.

His wish granters surprised him with his helmet, the first step towards making his wish come true.

They then arranged a mechanic workshop where he learned the basics of how to fix and care for his new bicycle, as usually he would just sent them to the shops.

Danish had given his specifications of what he wanted his new bike to be, and so his wish team brought him to the bicycle shop to get fitted for his perfect new ride. He was able to give his opinion on what he wanted to change and remove.

On his wish day, Danish and his family gathered for a morning of fun. The celebration ended with the moment Danish had been waiting for — receiving his brand-new bike, ready for countless rides and adventures ahead!
